

## **~ENERGIES (12)**

**[English, forces, power]**

- **When an iron tool has not been whetted one will have to exert their own vital **energies** to make it work effectively.**
- **If an iron tool has become blunt and someone has not whetted its edge, then he will exert his own vital **energies**. So the using of wisdom to success means advantage. (**Ecclesiastes 10:10**)**
