

~KIMAH CONSTELLATION (37)

- This term is used at;
- Can you tie fast the bonds of the **Kimah constellation**, or can you loosen the very cords of the Kesil constellation? (**Job 38:31**)
- The Maker of the **Kimah constellation** and the Kesil constellation, and the One turning deep shadow into the morning itself, and the One who has made day itself dark as night, the One calling for the waters of the sea, that he may pour them out upon the surface of the earth, Yehowah is his name. (**Amos 5:8**)
- To refer to a celestial constellation. It is usually considered to refer to the Pleiades, a star group formed of seven large stars and other smaller ones, enveloped in nebulous matter and situated about 300 light-years from the sun.
- Can you tie fast the bonds of the **Kimah constellation**, or can you loosen the very cords of the Kesil constellation? (**Job 38:31**)
- Yehowah asks Job if he can, tie fast the bonds of the **Kimah constellation**, and some relate this to the compactness of the Pleiades cluster, the star cluster most likely to be noted by the naked eye. While the identification of the particular constellation intended is indefinite, the sense of the question asked evidently is whether a mere man can bind together in a cluster a group of stars so that they comprise a permanent constellation.
- Thus, by this question, Yehowah brought home to Job man's inferiority when compared with the Universal Sovereign.
