

~SELA 1 (21)
(Se'la) [Crag]

- **A location on the boundary of Amorite territory after the Israelites took possession of the Promised Land.**
- **And the territory of the Amorites was from the ascent of Akrabbim, from **Sela** upward. (**Judges 1:36**)**
- **The site is unknown today. Some would identify this **Sela** with the one in Edom.**
- **He himself struck down the Edomites in the Valley of Salt, ten thousand men, and got to seize **Sela** in the war, and its name came to be called Joktheel down to this day. (**2 Kings 14:7**)**
- **But there is no evidence that Amorite territory ever extended so far South into the region controlled by the Edomites.**
