

John 11:37~ But some of them said; Was not this man that opened the eyes of the blind man, able to prevent this one from dying?

1· So they questioned within themselves, why this man, who had been able to open the blind man's eyes, was not able to prevent this one he knew and loved, from dying. They were therefore, not expressing faith through these reasonings.

[Question] How then, did these Jews show, that they were not exercising faith in Jesus, for what did they think he should have been able to prevent?

2· After he said these things, he spit on the ground and made a clay with the saliva, and put his clay upon the man's eyes **(John 9:6)**

[Question] What did Jesus do for a man born blind to heal him?
