

John 4:11~

She said to him; Sir, you have not even a bucket for drawing water, and the well is deep. From what source, therefore, do you have this living water?

1· So at first her response was to think, that he was talking about ordinary water, so she noted that he did not even have a bucket for drawing water from the well, and the well was quite deep. So she asked him to clarify, from what source, was he going to get this water.
